
Career and Technical Language Revisions, Rule

The Background:

The proposed item revises language in Rules, Regulations and Minimum Standards of the State Board of Education to conform with the recent legislative decision to change the name of vocational education to career and technical education.

A law enacted by the 104th General Assembly established a division of career and technical education and called for all references to or duties or powers of the former division of vocational education or the division of vocational-technical education to be deemed to be references to or powers or duties of the division of career and technical education. (Tennessee Code 49-1-202.Divisions)

The Master Plan Connection:

This item supports the Master Plan by providing clarity regarding **curriculum** and **teachers**.

The Recommendation:

The Department of Education, Division of Career and Technical Education, recommends adoption of these revisions on final reading. The SBE staff concurs with this recommendation.

**Rules
of
The Tennessee Department of Education
The State Board of Education**
